ClimateCart

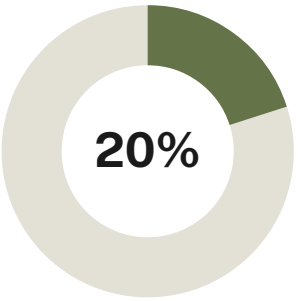

What's the CO_2 of your groceries?

Scan your supermarket receipt and see the carbon footprint of every product.

We're spending 4× our climate budget

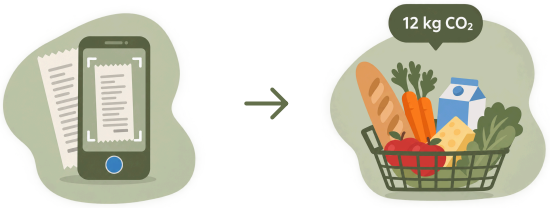

Carbon footprint per person per year

Food is **about 20% of the carbon footprint**

Photograph your receipt

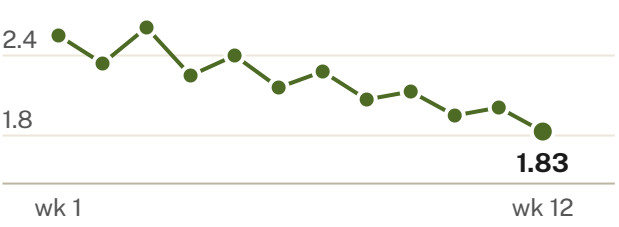

Take a photo of your paper receipt, or upload a PDF receipt.

See the kg CO_2 of every product and of your whole basket.

Follow your footprint over time

kg CO_2 per kg of food, per week (example)

178 kg CO_2 of groceries ≈ **2.5× a flight** Brussels–London
